LED LIGHTS

LED technology is state-of-the-art in vehicle lighting. **TESLA premium LED lamps** offer exceptional brightness and optimised light distribution. The cool white beam up to 6000 K brings users a daylight effect at night and more comfort and pleasure when driving. With the latest LED technology in a very compact design, the new LED lamps offer a longer lifetime, high compatibility and an easy installation. Drivers looking to upgrade to LED can now choose a new generation of TESLA premium LED lamps in five different series.

LED ULTIMATE

LED STANDARD

LED ADVANCED

LED SUPREME

LED XENON

Color temperature

Up to 6000K

Lifetime

Up to 5000 hours

Beam performance

Up to 250% more light

LED ULTIMATE

Most available LED lamps are not street-legal in exterior applications. The TESLA ULTIMATE series offers a legal solution to upgrade your halogen headlights to street-legal LED lamps. **Each vehicle type is tested individually, and the number of approved marks and models continues to grow.**

- Approved for many vehicle models
- Glare-free driving for all road users
- Up to **6000 K** colour temperature similar to daylight
- Unique LED technology with a modern look
- Extended 3-year guarantee

AVAILABLE IN

H7

LED LIGHTS

LED STANDARD

With TESLA LED STANDARD range, vehicle lighting can be converted to the newest LED technology. Enjoy the luxury of premium white light up to 6000 K, increasing visibility and allowing to see further, feel safer and improve reaction time when an obstacle occurs.

- Better visibility thanks to daylight effect
- Up to **230% more light** and brightness
- Optimal light distribution for better road sign visibility
- High compatibility with major vehicle models
- Compatible with **12V and 24V** electrical systems

AVAILABLE IN

H4, H7, H8, H9, H11, H16, HB3, HB4

LED ADVANCED

Compact design of TESLA LED ADVANCED series offers an extremely easy installation for cars with the respective halogen bulb types. A longer lifetime compared to halogen bulbs makes the LED ADVANCED lamps attractive choice for all drivers. The optimised light distribution brings more light on the road where it is needed.

1:1

- Easy **plug & play** installation
- Compact design without adapters and caps
- Long-lasting performance **up to 5.000 hours**
- **Up to 6000 K** colour temperature similar to daylight
- Compatible with **12V and 24V** electrical systems

AVAILABLE IN

H4, H7, H8, H9, H11, H16, HB3, HB4

LED LIGHTS

LED SUPREME

TESLA SUPREME LED bulb range integrates all the advantages of LED lighting. SUPREME LED lamps offer outstanding visibility for a safe journey and robust durability designed to withstand the toughest driving conditions. The great visibility with a cool white beam brings more comfort and pleasure when driving.

- **Up to 250% brighter light** for superior visibility
- **Up to 6000 K** colour temperature similar to daylight
- Glare-free driving for all road users
- Compatible with **12V and 24V** electrical systems
- Extended warranty up to 3 years

AVAILABLE IN

H4, H7, H8, H9, H11, H16, HB3, HB4

LED XENON

More drivers are choosing to replace xenon lighting with LED retrofits.

LED lamps have a longer lifetime, whiter and more uniform colour and guarantee stable high brightness and colour temperature. LED XENON lamps are identical in size, mounting and plugs to their HID originals.

- Easy installation without any modifications
- Compact all-in-one-design for **plug & play** use
- Nominal brightness immediately after switching on
- Improved visibility with bright white light up to **6000 K**
- Extended warranty up to 3 years

AVAILABLE IN

D1, D2, D3, D4, D5, D8

XENON

Xenon lamps, also known as HID (High-Intensity Discharge) lamps, are filled with a mixture of gases. The HID lamps are transparent with tungsten electrodes at each end. As the lamps have no filaments, they're more durable and last longer than halogen bulbs. They also produce more light while consuming less energy. TESLA offers a comprehensive range of xenon lamps - **standard 4300K series** and **premium 5000K series**.

D1S	D2R	D2S	D3S	D4S	D5S
					
Color temperature		Lifetime		Beam performance	
Up to 5000K 		Up to 2500 hours 		Up to 200% more light 	

TESLA XENON

TESLA standard 4300K Xenon lamps are three times brighter than conventional light bulbs. In addition, TESLA Premium 5000K Xenon lamps produce light that is close in colour to natural daylight. Compared to the basic range, these premium xenon lamps provide up to 20% more light and ensure maximum visibility and safety for all road users.

Standard 4300K series

Premium 5000K series

- 4300K & 4600K & 5000K light colours
- Precise and bright beam of light
- High resistance to shocks and vibrations
- Long life and high performance
- Certified according to ECE regulations

AVAILABLE IN

D1S, D2R, D2S, D3S, D4S, D5S

HALOGEN+

TESLA offers a wide range of **PREMIUM halogen bulbs** based on special designs. The main objective of premium bulbs is to improve driving performance at night and during adverse weather conditions, maximise visibility and reduce the risk of accidents. Premium halogen bulbs offer additional benefits in terms of durability, light colour, vibration resistance or performance.

LONG LIFE	HEAVY DUTY	SUPERVISION	PLATINUM WHITE	ULTRA WHITE

Beam performance 	Beam performance 	Beam performance 	Beam performance 	Beam performance 

LONG LIFE

TESLA long-life automotive lamps are a perfect choice when it comes to durability. Compared to standard halogen lamps, they have an impressive lifetime up to two times longer. TESLA long-life series is ideal for frequent drivers and for all-day lighting.

LL
LONG LIFE

Double the lifetime, double the safety

- Ideal combination of durability and light output
- Cost-effective solution, extended replacement interval
- Available in 12V & 24V versions
- Certified according to ECE regulations

AVAILABLE IN

12V & 24V

H1, H4, H7

HALOGEN+

HEAVY DUTY

TESLA Heavy Duty automotive bulbs are known for their exceptional durability, reliability, and superior performance. They provide increased resistance to shocks and vibrations and are ideal for off-road and heavy-duty use. TESLA Heavy Duty bulbs are designed to keep your truck and your business moving.

HD
HEAVY DUTY

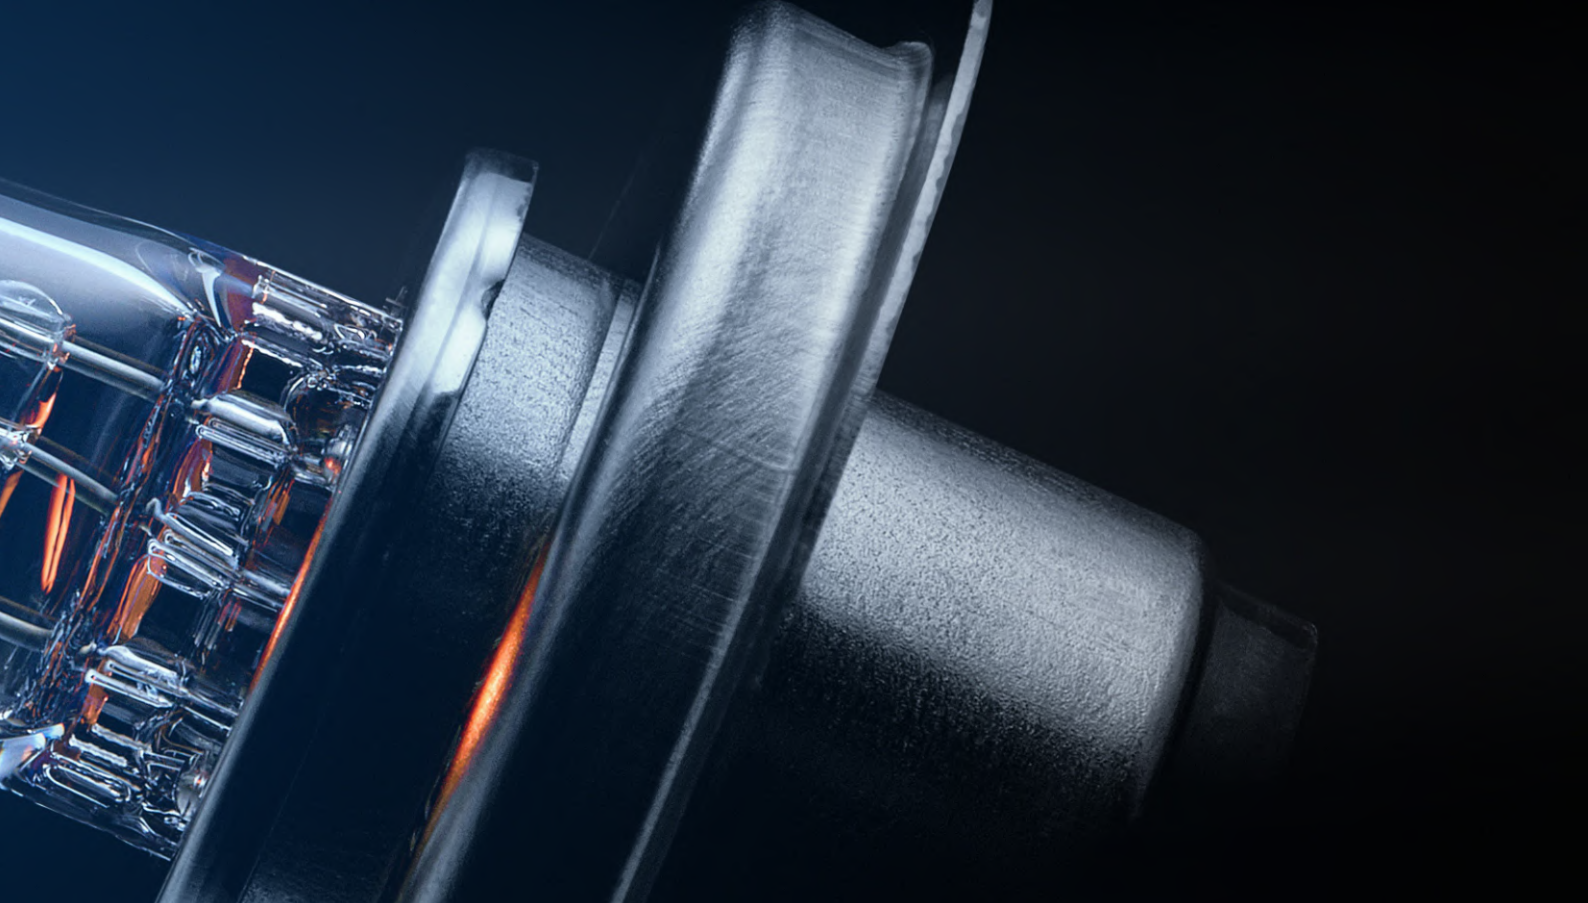

High vibration resistance

- All the advantages of a standard bulb
- Extended replacement interval
- Ideal for use on rough roads
- Certified according to ECE regulations

AVAILABLE IN

24V

H1, H4, H7

SUPER VISION

For drivers concerned about the brightness of their headlights, TESLA offers three lines of premium halogen bulbs with increased light output. Already the first very popular SUPER VISION series significantly improves the contrast and visibility of objects in front of the car, such as road signs and road hazards.

50%
MORE LIGHT

Up to 50% more light

- Up to 20 metres longer beam compared to standard bulbs
- Enhanced light output and long life
- Typical silver top
- Certified according to ECE regulations

AVAILABLE IN

12V

H1, H4, H7, H8, H9, H11

HALOGEN+

PLATINUM WHITE

Enhance your driving experience at night with TESLA Platinum White halogen bulbs. Modern design and stylish look with powerful white light almost rivals LED lamps. Take advantage of excellent illumination and high contrast - see further and react earlier.

100%
MORE LIGHT

Up to 100% more light on the road

- Up to 60 metres longer beam compared to standard bulbs
- Excellent light performance and beam strength
- Special platinum top and blue coating
- Certified according to ECE regulations

AVAILABLE IN

12V

H1, H4, H7

ULTRA WHITE

You don't want any compromise when it comes to the light performance? You can try the TESLA brightest ULTRA WHITE halogen bulbs. The light reaches up to 100 metres more than standard bulbs. Maximum light and outstanding visibility will help the driver to react much earlier to any dangerous situation on the road.

200%
MORE **LIGHT**

Up to 200% more light on the road

- Up to 100 metres longer beam compared to standard bulbs
- Maximum brightness, power and beam strength
- Special silver top and blue-ring coats
- Certified according to ECE regulations

AVAILABLE IN

12V

H7

CLASSIC HALOGEN

Halogen bulbs for cars are still the most popular classic light, for good reason. They offer long lifetime, high performance and optimized illumination. The TESLA halogen bulb range has been continually developed for over than 30 years and remains at the cutting edge of technological development whilst maintaining a broad coverage. For all these compelling reasons, TESLA halogen bulbs are the ideal choice for all drivers.

OEM QUALITY CLASSIC HALOGEN BULBS

PRODUCT

order number / каталожный номер

description / описание

Plastic self-standing display box with possibility of hanging on the wall
Пластмассовые стенды с возможностью подвески на стену

BS0100

- empty display without bulbs
- пустой стенд (поставляется без ламп)

BS0101

- delivered with 12V bulbs according to the table below
(101 boxes with 398 bulbs)
- стенд составлен из отдельных упаковок ламп 12V - см. таблицу
(101 упаковка с 398 шт. ламп)

BS0102

- delivered with 24V bulbs according to the table below
(101 boxes with 398 bulbs)
- стенд составлен из отдельных упаковок ламп 24V - см. таблицу
(101 упаковка с 398 шт. ламп)

(450 x 450 x 230 mm)
